18 JUNE 1999

Greetings return to you, Doctor Colorado, in the love and in the light of the ancestors, The Source of Life.

We of the ancestral tribal mind, dream our dreams and they are full of gentleness of the mind, the warmth of the heart and the humility of the soaring spirit; "Let peace prevail, enfold it with the red cloak". If darkness comes persuade it to follow the way of peace. The ancestral bowl of light.

In appreciation and support of women of vision, like yourself, Doctor Colorado, there is a connection to the universe where Kane retrieved from Lehua, the bowls of light and the two red stones. Like the ancestors, you are connected to the Universe by your own visions as part of an inseparable aspect of creation- the merging of the ancestral tribal mind.

This sense, the intuitive avenue through the heart, opens the mind to the appropriate translation that it may enter the theoretical aspect of living and effectively integrate those feelings of the heart into usable theory of that ancestral tribal mind.

Since time on Mother Earth is so limited and time within the bosom of the Universe is so extensive, there is room for you to develop your own level of cosmic vision and give birth to it through the appropriate channels of physical reality.

The level of the material human mind is limited and grows slowly, but the level of the spiritual tribal heart is eternal, and as it becomes filled with aloha it changes

AI WAI'U I KA POHO

the very nature of the material man into the vision he holds most dear: that of himself as an alive and integrated extension of the Universe- The Ancestral Grand Plan.

Doctor Colorado, you have distinguished yourself by a consistent superior performance of the ancestral mind on the beach of Quida, Benin, West Africa, January of this year, 1999. Proof of the quality of your instruction can be seen by the fact of students' dissertation, one that I witnessed, in Dakar, Senegal, West Africa, this last March, 1999. You have clearly demonstrated that you are eminently qualified as a Kumu- an Elder, a teacher, and a foundation built and established with the ancestral strength of compassion. I appreciate, respect, and support your good work and recommend its essence to those of interest

May the spirit of the land and all its relations, with the ancestral tribal mind of the Oneida, create a sanctuary fully imbued with aloha. With the permission of the ancestors, I leave you, Doctor Colorado, in the love and in the light of the ancestors, The Source of Life; rejoicing in the power and the peace braided with the cords of patience, revealing the tapestry of aloha.

RESPECTFULLY,

Hale Makua
